INDEX TO VOLUME IV

Aceto-carmin 53, 54
smears, method for making permanent 53
Acid fuchsin 12, 13, 21, 23, 30, 32, 34, 35, 62, 63, 81–86, 97, 98, 113, 115, 123, 133
Acriflavine 105
Acriviolet 105
Activity of the thyroid gland in relation to the staining reactions of the colloids. (abs.) 31
Alizarin 37
Alkanna roots, extract 38
Alkannin 40
Alum-hematoxylin 38–41
Amendment to constitution 71
Ammonia carmin 41
Ammoniacal hematein 46
Anderson, B. B.; J. Kisser and. Method of preparing thin cross and longitudinal sections of cotton fibers and its importance in cell wall research. (abs.) 93
Anilin 40
Anilin blue 82, 133
picro- 95
Anisol statt Zedernöl als Immersionsmittel nach Becher. (abs.) 133
Apparatus for holding cover slips during fixation 59
Atmospheric oxidation, or dealkylation, of aqueous solutions of methylene blue .. 7
Aurantia 13, 96, 123
Azo acid yellow 74
Azure 123
Azure A 82, 83, 98
Azure B 82, 83, 121, 124
Azure C 124
Azure II 136
Azure-eosin 63
Azure II-eosin 136

Bacteria, detailed differentiation of, by means of mixture of acid and basic dyes at different pH-values 81
Bacteria, variation in staining character as related to reserve food material within the organism 105
Bacteria and mitochondria, double staining of, in plant tissues 13
Bacteria and yeasts, some staining methods for 21
Baer, Flora. An apparatus for holding cover slips during fixation 59
Baginski, S. Sur la detection histochimique de l'adrenaline. (abs.) 29
Basic fuchsin 3, 11, 12, 21–24, 31, 33, 98, 108, 133
Belling, J. A method for the study of chromosomes in pollen-mother-cells. (abs.) 94
Bismarck brown Y 98
Bowen, Robert H. A new staining dish for handling coverglass preparations. 57
Bratiano, S.; P. Galesesco and. Coloration des graisses par l'extrait alcoolique de *Daucus carota*. (abs.) 62
Brazilein 38
Brazilin 38, 96
iron- 94
Brilliant cresyl blue 70
Brilliant croceine 74
Brilliant green 23, 24, 36, 113, 114
Brilmyer, G. J. A nuclear and differential stain combined. (abs.) 133

Carbol acid fuchsin 82
Carbol fuchsin 21–25, 32
Carbol gentian violet 82
Carbol methylene blue 24
Carmalum 93

Carmin 32, 38, 40, 41, 44
aceto- 53
lithium 62
Carotin 62
Carrots, (*Daucus carota*) extract 62, 94
Cartwright, K. St. G. A satisfactory method of staining fungal mycelium in wood sections. (abs.) 94
Chaze, J. Sur le mode de formation et la détection des alcaloïdes dans la plantule de tabac. (abs.) 61
Chemical analysis of thiazin eosinates 49
Chlorination method for macerating woody tissues 29
Chrysoidin 96
Cochineal 37
Coloration des graisses par l'extrait alcoolique de *Daucus carota*. (abs.) 62
Coloration des graisses par quelques pigments naturels. (abs.) 94
Coloration panotique d'exécution rapide permettant d'opérer sur la même préparation l'examin cytologique, l'examin bactériologique, et la recherche du bacille de Koch. (abs.) 31
Commission on Standardization of Biological Stains, present members of 5
Constitution of, amendment to 71
Congo red 3, 31
Conn, H. J. Note on Loeffler's methylene blue 27
Progress in the standardization of stains:
Definiteness in staining formulae 33
Hematein and acid fuchsin 97
Influence of impurities upon dyes 68
Safranin 65
Stain specifications 1
Stains recently certified 2, 36, 70, 98
The history of staining: Logwood dyes 37
Cotton blue 4B 135
Cover-glass preparations, new staining dish for handling 57
Cover slips, apparatus for holding during fixation 59
Craigie, J. A method of staining bacterial flagella. (abs.) 31
The demonstration of bacterial flagella. (abs.) 134
Crystal violet 11, 12, 32, 69, 70, 82, 83, 91, 98, 112–116, 119, 134, 135
Cyanole extra 74
Cytology of Saccharomyces cerviciae. (abs.) 31
Cytological work, differentiation of safranin in 27

Definiteness in staining formulae 33
Delafield's hematoxylin 42
Demonstration of bacterial flagella. (abs.) 134
Detailed differentiation of bacteria by means of mixtures of acid and basic dyes at different pH-values 81
Dianyl blue G 135
Differential staining of the Peronosporaceae. (abs.) 135
Differentiation of bacteria by means of mixtures of acid and basic dyes at different pH-values 81
Differentiation of safranin in cytological work 27
Dimethyl thionin 7
eosinate 52
Dimethyl thionolin 7
Dolfini, G. Su un nuovo metodo di colorazione dei grassi. (abs.) 94
Dorner's spore stain 108
Double staining of mitochondria and bacteria in plant tissues 13
Doubrow, S. Un. procédé rapide de coloration des bacilles de Koch dans les coupes histologiques (abs.) 94
Dufrenoy, J. Double staining of mitochondria and bacteria in plant tissues 13
Dyes, influence of impurities upon 68
Dyes, proteins, and nucleic acid, reaction between 111

Elastic tissue staining 11
Emploi des colorants mixtes en technique histologique. (abs.) 63

Emploi du mélange rhodamine-blue de méthylène dans la coloration des tissus splénique et lymphoide. (abs.) ... 63
Eosin .. 23, 32, 35, 49, 50, 51, 52, 62, 63, 64, 73, 74, 82, 95, 113, 115, 125, 126
Eosin B ... 3
Eosin BA extra ... 136
Eosin Y ... 3, 81, 98, 121, 124, 125
Eosinates, thiazin, chemical analysis of ... 49
Erb, N. M. A rapid stain for direct microscopic examination of milk. (abs.) ... 61
Erika B ... 74
Erythrin X ... 74
Erythrosin ... 73, 74, 98, 123

Färbung zur Darstellung reifer Samenzellen im Hodenschnitt-präparat. (abs.) ... 62
Farconi, Aldo. Il metodo Petragnani per le ciglia batteriche e le sue applicazioni alla colorazione de tessuti animali. (abs.) ... 133
Fast green FCF ... 74
Fixateur cytologique particulièrement adapté aux tissues de insectes. (abs.) ... 61
Flemming triple stain ... 66, 67, 135
Fluorescein ... 74
Foly, J. O. Studies in stain technic. I. Flemming's safranin, gentian violet, orange G method, with a suggested modification. (abs.) ... 135
French, R. W. Elastic tissue staining ... 11
Fry, H. J. A paraffin method for serially sectioning a minute object in a known plane. (abs.) ... 93
Fuchsin, acid ... 34, 35, 70, 97, 98, 113, 115, 123
basic ... 64, 70, 98, 108, 133
carbol- ... 77
Fuchsin-methylene-blue ... 122

Galesesco, P. and S. Bratiano. Coloration des graisses par l'extrait alcoolique de *Daucus carota*. (abs.) ... 62
Gaussen, C. Coloration panotique d'exécution rapide permettant d'opérer sur la même préparation l'examen cytologique, l'examen bactériologique, et la recherche du bacille de Koch. (abs.) ... 31
Gentian violet ... 22, 23, 24, 28, 32, 66, 70, 78, 81, 86, 91, 92, 105, 133
Giberton, A.; J. Millot, and. Sur utilization en histologie, des pièces conservées dans le formol, pour la mise en évidence des graisses. (abs.) ... 30
Giemsa stain ... 64, 122
Goldner, J. Résultats obtenus chez la seiche par l'emploi de divers colorants vitaux. (abs.) ... 62
Gram stain ... 78, 81, 86, 88, 91
note on ... 91
Green plant tissue, natural color preserved in sections ... 17
Guinea green B ... 74

Hadjioloff, A. Coloration des graisses par quelques pigments naturels. (abs.) ... 94
Une modification rapide de la méthode de Weigert-Pal. (abs.) ... 62
Harlow, W. M. A chlorination method for macerating woody tissues. (abs.) ... 29
Hausdorf, G. Färbung zur Dassellung reifer Samenzellen im Hodenschnittpräparat. (abs.) ... 62
Haynes, Rachel. Differentiation of safranin in cytological work ... 27
Heather, A. H.; J. H. Jordan and. Staining of Negri bodies ... 121
Hemacalcium ... 43
Hemalum ... 43
Mayer's modification of ... 127
Hematein ... 37, 43, 44, 45, 46, 97
ammoniacal ... 43
standardization of ... 97
Hematoxylin ... 12, 17, 18, 19, 30, 31, 32, 37, 38, 39, 40, 42, 43, 44, 45, 46, 62, 94, 96, 97, 123, 127, 128, 134, 136
alum ... 1, 38, 39, 40, 43, 61
Boetnner's ... 62
chrome ... 44
copper ... 44

crystalline 41
Delafield's 127, 133
glycerin 42
glycerinated alum 42
iron 12, 30, 44, 45, 94
iron alum 32
phosphomolybdic 45
phosphotungstic 46
staining with, history of 37
vanadium 45
Hewer, E. R. The activity of the thyroid gland in relation to the staining reactions of the colloids. (abs.) 31
History of staining: Logwood dyes 37
